Innehåll

The course is based on research findings within the subject area in relation to the context of social sciences.

SUBCOURSE 1 Music & Event Management: Digital, 7,5 credits

Digital distribution, technology and communication

Perspectives on music, new technology, digital distribution, new media and new ways of creation, production, distribution and consumption of music are the main content. Distribution by means of the Internet and different file formats. The consequences for the music industry are discussed in lectures and seminars and in practical assignments. Lectures and seminars with actors involved in music, media and digital distribution technology

SUBCOURSE 2 Music & Event Management: Project Management globalization and marketing, 7,5 credits

Project management:

Methods and theory of project management focusing on projects within the music industry

The production and reproduction of music in a global world/context:

Lectures and seminars around the creative aspect of the global music and event industry, nationally as well as internationally. Seminars with producers and production companies.

The distribution and consumption of music in a global world/context:

Music distribution and consumption in a global context. The impact of globalization and new technologies on music marketing and music consumption. The ways and methods the actors in the music industry use in their selection of marketing strategies and technologies and the definitions and categorizations within the industry. Perspectives on consumption and culture from a global perspective. Lectures and seminars with actors involved in distribution and marketing of music on an international/global level in the Swedish music industry.

Undervisningsformer

The tuition consists of lectures, classroom teaching, seminar exercises, case studies, individual and group exercises. Participation in case study exercises, seminar exercises etc, is obligatory. The tuition and teaching material is in English when the courses have guest or/and exchange students from other countries than Sweden.

Assessment of the student's attainments is carried out by means of written examinations and by the submission of solutions to case studies achieved either independently or in a group, and written exercises.

Examinationsformer

Kursen bedöms med betygen Underkänd, Godkänd eller Väl godkänd.

The grading is based on assessment of the written exams, reports and the student's ability to present and discuss report contents. Results are graded using one of the terms Passed with distinction, Pass or Fail, and A-F according to the ECTS scale.

Students who do not achieve a satisfactory result in the examinations are permitted to make a second attempt approximately 5-8 weeks after the normal examination date. The student will have a minimum of five occasions for written exams in relation to the syllabus to which the student was accepted. Usually 3 occasions per academic year.

Kursvärdering

A written evaluation is conducted and compiled in a report, which is filed at the department. The result and actions, if taken, are communicated to the teacher responsible for the course and presented to the students in the way most appropriate according to the teacher responsible for the course. Other types of evaluations, such as continuous during the course or oral communication with the students, can occur and is encouraged to secure continuous quality improvement.
