Förkunskaper

Admission to the programme requires basic eligibility for second-level studies and special eligibility in:

- a minimum of 90 higher education credits in Social Work or their equivalent
- English B.

Förväntade studieresultat

The purpose of the course are for the student to increase the knowledge and understanding of multicultural perspectives of disability. The students will be exposed to disability studies and social theories and aspects that impact people who have disabilities. Students who successfully complete the course will have awareness of important international debates in the field of disability, awareness of ethical issues, knowledge and skills to identify and analyse similarities and differences between cultures. The aims for student are also to analyse different systems for support and service and develop material for publications in order to enhance students writing skills.
