The course syllabus is valid from spring semester 2016

Prerequisites

General entry requirements and English B (Field-specific entry requirements 2/A2). 30 credits in design or the equivalent.

Objectives

After completing the course, the student should be able to:

- account for and practically apply the configuration and production of pattern designs,
- account for the possibilities and problems involved in the production of and market for pattern designs,
- practically apply artistic methods and determine which methods are suitable when working with patterns and pattern designs.

Content

- Basic practical training in the creation of products, focusing on textiles
- Artistic training in pattern designs and repeating patterns, including compiling a collection, working with colour schemes, designing for manufacturability and marketing
- Practical training in photo screen printing, original work and printing of repeating patterns, including their principles.

Type of Instruction

Lectures, laboratory sessions, workshops and supervision.

Examination

The course is assessed with the grades A, B, C, D, E, Fx or F.

The course is examined through written assignments and active participation in laboratory sessions and workshops.

The grade A is the highest grade and the grade E is the lowest grade for passing the course. The grade F means that the student's performance is assessed as failed.

For students who do not pass the first examinations, retake examinations are provided in accordance with local regulations at the university.

Course Evaluation

At the end of the course, a course evaluation is conducted in line with regulations at Linnaeus University. The results of the evaluation are compiled into a course report which is filed with the department's administrator and brought up in the Programme Advisory Board. Results and possible measures are communicated to the person responsible for the course and the person responsible for the programme and presented to the students at the next course meeting.

Credit Overlap

This course cannot be part of a degree in combination with another course in which the content fully or partly correspond to the content of this course: 1DI705 overlaps with and replaces 1DI655 Patterns and configuration.

Other

Assessment criteria for the A–F scale are communicated to the students in a separate document. The students are informed about the assessment criteria when the course starts, at the latest. Any costs for material and printouts are paid by the student.
