Objectives

After completing this course the students is expected to have:

- Knowledge of financial markets and capital pricing
- Applied knowledge of simple financial planning and control
- Applied knowledge of financial analysis, including cash-flow analysis
- Applied knowledge of investment appraisal models
- Knowledge of working capital requirements

Content

- Financial statement analysis
- Financial analysis: liquidity, profitability and cash-flow analysis
- Financial planning: raising of capital, capital structure, capital rationalization
- Investment appraisal
- Financial theory

Type of Instruction

The teaching methods are internet-based.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The grading is based on assessment of the written exams, reports and the student's ability to present and discuss report contents.

Results are graded using one of the terms Passed with distinction, Pass or Fail, and A-F according to the ECTS scale.

Students who do not achieve a satisfactory result in the examinations are permitted to make a second attempt approximately 5-8 weeks after the normal examination date. The student will have a minimum of five occasions for written exams in relation to the syllabus to which the student was accepted. Usually 3 occasions per academic year.

Course Evaluation

A written evaluation is conducted and compiled in a report, which is filed at the department. The result and actions, if taken, are communicated to the teacher responsible for the course and presented to the students in the way most appropriate according to the teacher responsible for the course. Other types of evaluations, such as continuous evaluations during the course or oral communication with the students, can occur and is encouraged to secure continuous quality improvement.
