- handle basic function of management accounting programs
- apply basic data processing and basic database management
- apply models in the field of business administration

## Content

The course contains:

- applied budgeting models;
- applied management accounting models;
- applied accounting models;
- applied financing models.

## Type of Instruction

Teaching is carried out as distance learning with help from a learning platform and consists of self-studies based on instructions from the course coordinator, participation in

web-based group discussions and writing of individual written reports. The course requires access to a computer and the internet. No compulsory meetings on campus are included.

### Examination

The course is assessed with the grades Fail (U) or Pass (G).

The grade G constitutes the highest grade on the scale that will result in a pass. The grade U means that the student's performance is assessed as fail.

The course is examined through 6 laboratory sessions of 1 credits. each.

Repeat examination is offered in accordance with Local regulations for courses and examination at the first and second-cycle level at Linnaeus University. Students who are close to the passing grade of reports can complement after instructions and time-frame given by the examiner to obtain a pass grade.

If the university has decided that a student is entitled to special pedagogical support due to a disability, the examiner has the right to give a customised exam or to have the student conduct the exam in an alternative way.

### Course Evaluation

During the implementation of the course or in close conjunction with the course, a course evaluation is to be carried out. Results and analysis of the course evaluation are to be promptly presented as feedback to the students who have completed the course. Students who participate during the next course instance receive feedback at the start of the course. The course evaluation is to be carried out anonymously.
