Type of Instruction

The teaching consists of lectures, cases, workshops, seminars and tutoring. Active participation is required at the start-up meetings, workshops and seminars where assignments are processed and presented in collegial learning.

Module 1: Subject Didactic Challenges, 3 credits

The teaching consists of lectures, cases and workshops.

Module 2: Independent development work in business administration didactics, 4.5 credits

The teaching consists of seminars and tutoring.

Teaching is carried out as distance learning with help from a learning platform and consists of self-studies based on instructions from the course coordinator. The teaching consists of participation in web-based group discussions and writing of individual written reports. The course requires access to a computer and the internet. The course has one compulsory meeting on campus. Dates for compulsory components are stated in the schedule.

Examination

The course is assessed with the grades A, B, C, D, E, Fx or F.

Module 1: Subject Didactic Challenges, 3 credits

The module is examined through active participation 1 credit and a written report 2 credits.

Module 2: Independent development work in business administration didactics, 4.5 credits

The module is examined through independent written report and oral presentation 4.5 credits.

The following applies to all modules:

The grade A constitutes the highest grade on the scale and the remaining grades follow in descending order where the grade E is the lowest grade on the scale that will result in a pass. The grade F means that the student's performance is assessed as fail.

The grade of the course is a combined assessment from the grades of the various course modules. The combined assessment is based on the grades and the scope of the course (number of credits). The more extensive a module is, the greater impact it will have on the final grade. Module grades with the grading scale between G-U will not be considered into the combined assessment. However, a G is required for each of the modules in order to receive a final course grade.

Repeat examination is offered in accordance with Local regulations for courses and examination at the first and second-cycle level at Linnaeus University. An examiner can, in exceptional cases, decide that a student who is close to the level for a passing grade may carry out supplementary assignments in order to reach the passing grade. If the university has decided that a student is entitled to special pedagogical support due to a disability, the examiner has the right to give a customised exam or to have the student conduct the exam in an alternative way.

Course Evaluation

During the implementation of the course or in close conjunction with the course, a course evaluation is to be carried out. Results and analysis of the course evaluation are to be promptly presented as feedback to the students who have completed the course. Students who participate during the next course instance receive feedback at the start of the course. The course evaluation are in regular carried out anonymously.
