General entry requirements for university studies.

## Objectives

Having completed the course the student is to have:

- Understanding of the importance of outdoor education from an angler's perspective
- Understanding of the role of angling in society
- Practical and theoretical skills for some of the most commonly used angling methods
- Good knowledge about the effect of angling in terms of the number of fish and close environment
- Ability to problematise the ethics of angling

## Content

- Angling culture in Sweden
- Practical and theoretical skills for sustainable angling
- Ethical problems associated with angling
- The importance of outdoor activities for society based on angling

- Angling from an environmental perspective
- The effect of angling on humans' view on nature
- Fishing ecology
- Fish species
- Experience based learning
- Outdoor education as a platform for integrating subjects

## Type of Instruction

Teaching may be in the form of practical elements, lectures, discussions, seminars, participant project assignments and field studies.

The extent of the obligatory elements is presented further in the schedule and study guide.

The language of instruction is Swedish. If necessary the examiner may decide to use English as the language of instruction.

## Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

Continuous assessment that focuses on personal skills and active participation. Advance study assignments.

In order to pass the course the student needs to meet the expected learning outcomes.

The number of retakes is limited to five (in accordance with the Higher Education Ordinance chapter 6, 21§).

Students at Linnaeus University are entitled to have the course grade translated into the 7-step ECTS scale. A request to have the grades translated must be made to the teacher at the start of the course.

## Course Evaluation

When the course is completed it is evaluated through a written evaluation in accordance with the web based evaluation form of the school. The results are compiled and archived in accordance with the regulations of the school.
