- read and utilize the content of English scientific and popular scientific articles within the area of information logistics
- independently evaluate and adapt the business correspondence, presentations,

meetings and negotiations in English.

Content

The course content comprises:

- business correspondence
- oral presentations
- meetings and negotiations
- intercultural dimensions
- basic scientific and popular-scientific articles

Type of Instruction

The teaching consists of lectures, seminars, and exercises. Participation and attendance is compulsory in certain parts of the course.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

On request, students may have their credits translated to ECTS-marks. Such a request must be sent to the examiner before the grading process starts.

Assessment of the student's performance is made through oral presentations and written assignments, performed individually or in groups. Students who do not pass the regular examination are given the opportunity to do a resit examination shortly after the regular examination.

Course Evaluation

A written course evaluation will be carried out at the end of the course in accordance with the guidelines of the University. The course evaluation will be filed at the department.

Other

Upon request, a Swedish University course certificate will be awarded upon successful completion of the course.

Students who receive a passing grade in the course may download a course certificate through the Student Portal. Otherwise they may request a course certificate from the school secretary.
