- create a business development plan.

Content

The course comprises:

- definition and use of concepts within business analysis, organisational change and business development
- theoretical and methodological approaches for business modeling
- methods, techniques and tools that are used in business analysis and business

- modelling
- methods, techniques and tools that are used in organisational change
- methods that are used in business development

Type of Instruction

The teaching consists of lectures, group work and seminars. Participation in group work and seminars is compulsory.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

Assessment of student performance is made through written test and/or oral examinations and/or presentation of mandatory assignments. The assessment method is decided at the start of the course.

Students who do not pass the regular examination will be offered retrials close to the regular examination.

On request, students may have their credits translated to ECTS-marks. Such a request must be sent to the examiner before the grading process starts.

Course Evaluation

During the course or in close connection to the course, a course evaluation is to be carried out. The result and analysis of the course evaluation are to be communicated to the students who have taken the course and to the students who are to participate in the course the next time it is offered. The course evaluation is carried out anonymously. The compiled report will be filed at the Faculty.
