

Course syllabus

Faculty of Health and Life Sciences

Department of Health and Caring Sciences

1MC620 Människans sjukdomar III, 7,5 högskolepoäng

Human Illnesses III, 7.5 credits

Main field of study

Medical Science

Subject Group

Medicine

Level of classification

First Level

Progression

G1F

Date of Ratification

Approved 2011-06-15

Revised 2018-02-23 by Faculty of Health and Life Sciences.

The course syllabus is valid from spring semester 2018

Prerequisites

Following courses or equivalent:

Human Anatomy and Physiology incl. microbiology 15 credits

Objectives

On completion of the course, students should be able to:

- describe the connection between pathophysiology, symptom, diagnosis and treatment, including specific pharmacology, of medical, surgical and complex diseases
- account for emergency care during trauma and acute medical conditions
- problematize the importance of prevention for limiting the development of diseases and rise of complications
- problematize contexts in relation to people who are living with multiple diseases
- communicate multiple disease manifestations, treatments and consequences to people who have, and do not have, special knowledge within the field

Content

- Specific pharmacology
- Blood diseases
- Gastrointestinal disorders
- Renal diseases and transplantation
- Tumors
- Metabolic syndrome
- Trauma and acute medical conditions
- Patients suffering from multiple diseases
- Prevention

Obligatory elements are specified in the course schedule.

Type of Instruction

- Individual studies
- Lectures
- Seminars
- Application exercises

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The course is examined with two individual written examinations. In order to receive the grade of pass, all expected learning outcomes must be achieved. In order to receive a grade of pass with credit, students must receive the grade of pass with credit on all written examinations. A resit examination is offered according to local rules for examinations (Dnr: HL/2009-0283).

Course Evaluation

A written evaluation is carried out and compiled in a report, which is archived at the institution. The results, along with possible measures taken, are reported to the students the next time the course is given.
