Prerequisites

1ME314 Video production 1, 7.5 credits or equivalent.

Objectives

Upon completion of the course the student should be able to:

- conduct a video production individually and in a group
- analyze and create video productions according to dramaturgical models
- explain different distribution channels for video
- explain the process from quotation to delivery of a video production
- explain the development within the field of video production

Content

The course consists of

- Camera technology and video editing
- Techniques for post production of image and sound
- Production techniques for interactive streaming video
- Dramaturgy
- Economy in the field of video production
- Project handling

Type of Instruction

The teaching consists of lectures, laborations and seminars. Mandatory seminars may occur.

Examination

EXAMINATION

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The examination consists of submission on mandatory hand in assignments and written exams. The final grade is a weighted average of the student's results.

Course Evaluation

During the course or in close connection to the course, a course evaluation is to be carried out. The result and analysis of the course evaluation are to be communicated to the students who have taken the course and to the students who are to participate in the course the next time it is offered. The course evaluation is carried out anonymously. The compiled report will be filed at the Faculty.
