Prerequisites

NO VALUE DEFINED

Expected learning outcomes

The student will develop an understanding of how different living conditions and views on health and social problems in different parts of the world influence the development of society, social services and health.

The student will gain a greater understanding of how cooperation in social services and health promotion may be developed.

Content

Living conditions and views on health and social problems in different parts of the world

Social services in different parts of the world

Promotion of good living conditions in different parts of the world

How to develop co-operation

Type of Instruction

The teaching is based on lectures and the student actively seeking knowledge and taking an active part in group discussions and seminars.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The assessment of each student's work is based on a written exam.

Course Evaluation
