Examination

The examination of the course is divided as follows:

Code	Designation	Grade	Credits
2301	Written home examination	AF	7,50

The course is assessed with the grades A, B, C, D, E, Fx or F.

The learning output is examined with an individual take-home written examination. In order to gain a Pass grade (A-E), the expected learning outcomes must have been achieved. Grading criteria is stated for the examination and is the basis for the grading.

Resit examinations are provided in accordance with the rules set out in “Local regulations for courses and examinations at first cycle and second cycle level”. If the university has decided a student is entitled to special pedagogical support because of a functional impairment, the examiner has the right to give the student an adapted examination or arrange for the student to do the examination in an alternative way.

Objectives achievement

The examination elements are linked to the course objectives in the following ways:

Goal	2301
A.1	<input checked="" type="checkbox"/>
A.2	<input checked="" type="checkbox"/>
B.1	<input checked="" type="checkbox"/>
C.1	<input checked="" type="checkbox"/>

Course Evaluation

A course evaluation will be carried out during the course or soon after. The result and the analysis of the course evaluation will be communicated to the students who have completed the course and presented to those who take the course the next time it is given. The course evaluation is anonymous.

Credit Overlap

The course cannot be included in a degree along with the following course/courses of which the content fully, or partly, corresponds to the content of this course: 1VÅ200 Perspectives on Contemporary Illness, 7.5 credits; 1SA200 Perspectives on Contemporary Illness, 7.5 credits; 1VÅ201 Perspectives on Contemporary Illness, 7.5 credits; 1SA201 Perspectives on Contemporary Illness, 7.5 credits
