- creation of an experience
- the sensory experience of the consumers
- communication with all senses

### **Module 4: Semester Project, 7.5 credits**

The module contains:

- research literature review conducted within the field of one of the other three modules

## **Type of Instruction**

Problem based learning, mainly through working with case based papers in seminars.

Active participation is demanded at seminars where case papers are presented and discussed. Participation in tasks and seminars are mandatory, as is the preparation for these. Obligatory parts are stated in the schedule. The course literature is introduced in lectures.

## Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The grading is based on assessment of written exams, written papers and the student's ability to critically discuss the papers' contents.

Results are graded using one of the terms Passed with distinction, Pass or Fail, and A-F according to the ECTS scale.

For the grade pass, the objectives have to be reached; the grade is based upon the degree to which the objectives are met. The weighing of the grades to the course grade is following the principles in the document "Principer för betygsrapportering dnr: ELNU 2011/160".

Students who do not achieve a satisfactory result in the examinations are permitted to make a second attempt approximately 5-8 weeks after the normal examination date. The student will have a minimum of five occasions for written exams in relation to the syllabus to which the student was accepted. Usually 3 occasions per academic year. Students that do not pass reports can complement after consultation with the examiner.

## Course Evaluation

A written course evaluation is carried out and compiled in a report, which is archived at the faculty. The results and possible measures taken are communicated by the course coordinator and presented to the students the next time the course is given, or in another way deemed suitable by the course coordinator. Other types of course evaluations, for example regular evaluations throughout the course or discussions with students, will be included and encouraged with the aim of ensuring continuous quality development.
