## Objectives

After completing this course the student should be able to:

- describe the judicial foundations for external accounting and explain the meaning and function of auditing
- apply accounting norms and recommendations for solving accounting problems
- explain principles for valuation and performance measurement within accounting in theory and practice, and apply these principles for assessing accounting problems
- describe the development of theories and research within the accounting field, and apply accounting theories for analysing accounting related phenomena and taking sustainability into account
- carry out and report an assigned project in written and oral form within specified time constraints

## Content

The course contains:

- survey of the impact of laws and recommendations on the form and content of external accounting and orientation on the function of auditing
- survey of the elements of financial accounting with a focus on the how problems are treated within normative accounting theory, regulation, recommendations and standards
- outline of the development of accounting theory and accounting research, including sustainability

## Type of Instruction

The teaching consists of lectures and seminars.

## Examination

The course is assessed with the grades A, B, C, D, E, Fx or F.

The course is examined through a written examination 5 credits and a written paper 2.5 credits.

The grade A constitutes the highest grade on the scale and the remaining grades follow in descending order where the grade E is the lowest grade on the scale that will result in a pass. The grade F means that the student's performance is assessed as fail.

Repeat examination is offered in accordance with Local regulations for courses and examination at the first and second-cycle level at Linnaeus University. An examiner can, in exceptional cases, decide that a student who is close to the level for a passing grade may carry out supplementary assignments in order to reach the passing grade.

If the university has decided that a student is entitled to special pedagogical support due to a disability, the examiner has the right to give a customised exam or to have the student conduct the exam in an alternative way.

## Course Evaluation

During the implementation of the course or in close conjunction with the course, a course evaluation is to be carried out. Results and analysis of the course evaluation are to be promptly presented as feedback to the students who have completed the course. Students who participate during the next course instance receive feedback at the start of the course. The course evaluation are in regular carried out anonymously.

## Credit Overlap

The course cannot be included in a degree along with the following course/courses of which the content fully, or partly, corresponds to the content of this course: 2FE050, 2FE935, 2FE919, 2FE044:1, 2FE045:1 and 2FE046:1 with 7.5 credits each.
