

Course syllabus

Faculty Board of Science and Engineering
School of Computer Science, Physics and Mathematics

2IL00E Examensarbete på kandidatnivå, 15 högskolepoäng
Degree Project – Bachelor Thesis, 15 credits

Main field of study
Information Systems

Subject Group
Informatics/Computer and Systems Sciences

Level of classification
First Level

Progression
G2E

Date of Ratification
Approved by the Board of the School of Computer Science, Physics and Mathematics
2009-09-08

Revised 2010-08-18. Revision made for English translation of the syllabus, prerequisites and course evaluation.

The course syllabus is valid from spring semester 2011

Prerequisites
75 credits in informatics/information logistics of which at least 15 credits must be on level G2F or equivalent

Expected learning outcomes

The course aims to give students knowledge/experience in:

- how to use a scientific approach
- methodological knowledge
- how to formulate and define the research problem
- how to independently collect information (theoretical and empirical)
- how to process and present a research project
- a scientific and critically reviewing.

Content

In consultation with the examiner the topic and theme of the thesis is chosen. During the course students shall report in writing the thesis and present the results at a seminar. The student will also conduct as an opponent to another student's thesis.

Type of Instruction

Teaching consists of lectures, seminars and tutorial.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

On request, students may have their credits translated to ECTS-marks. Such a request must be sent to the examiner before the grading process starts.

Assessment of student performance is made through seminars and submitted degree project.

Course Evaluation

A course evaluation will be carried out at the end of the course in accordance with the guidelines of the University. The result of the course evaluation will be filed at the department.

Required Reading and Additional Study Material

Required reading

Literature is chosen in consultation with the examiner.
