Department of Sport Science

2KP230 Bedömning och betygsättning för ämneslärare i idrott och hälsa (KPU), 4,5 högskolepoäng

Assessment and grading for secondary- and upper secondary school teachers of physical education, 4.5 credits

Main field of study

Didactics

Subject Group

Educational Sciences/General Didactics

Level of classification

First Level

Progression

G2F

Date of Ratification

Approved by Faculty of Social Sciences 2020-02-05

The course syllabus is valid from spring semester 2020

Prerequisites

2KP001 Perspectives on School and Teaching Conditions For Subject Teachers (KPU/bridging teacher education programme), 9 credits, or the equivalent.

Objectives

Upon completion of the course, student shall be able to:

- account for various forms and situations of assessment, and examinations based on relevant theories and current research,
- define assessment support for the documentation, analysis, assessment and grading of pupils' subject related development in relation to policy documents in force,
- state the reasons for a pupil's grades,
- explain the teacher's responsibility for grading in relation to the exercise of public authority and policy documents.

Content

Professional Basis and Professional Progression

In this course, students will further enhance their communicative skills in listening, speaking and writing in support of the educational practice. Students learn how to observe, document and analyse the pupils' learning, and how to assess and grade pupils. In the assessment, ethical and societal aspects are taken into consideration and the students are made aware of the aspects of equality in the assessment of pupils.

Scientific Approach and Scientific Progression

The students conduct scientifically based assessments of the pupils' learning on the basis of subject-specific didactic and general didactic theories.

Type of Instruction

Teaching takes place in the form of lectures, workshops, seminars and field studies.

Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

Examination of the course takes place by means of three written assignments.

In order to receive a grade of Pass in the course, the course objectives must be attained and all the examination assignments must be assessed as at least Pass. For a grade of Pass with Distinction in the course, it is required in addition to the requirements for a grade of Pass, that the student receives the grade of Pass with Distinction for at least two of the written assignments.

A retake of the examination is provided in accordance with the Local Regulations for First-Cycle and Second-Cycle Courses and Examination at Linnaeus University.

Should the university determine that a student is entitled to special educational support due to impairment, the examiner may provide the student with an adapted test or the student may carry out the examination in an alternative way.

Course Evaluation

A course evaluation is carried out either during or at the end of the course. Results and analysis of the evaluation are presented to the students who have completed the course as well as to new students at the following course date. The course evaluation is conducted anonymously.
