School of Health and Caring Sciences

2VÅ310 Akut vård - bedöma och omhänderta akut sjuka eller skadade patienter, 7,5 högskolepoäng

Acute care - management and nursing care, 7.5 credits

Main field of study

Caring Science

Subject Group

Nursing Science

Level of classification

First Level

Progression

G2F

Date of Ratification

Approved by the Board of the School of Health and Caring Sciences 2009-07-01

Revised 2011-08-31

The course syllabus is valid from autumn semester 2011

Prerequisites

NO VALUE DEFINED

Expected learning outcomes

On completion of the course, students should be able to:

- problematize complexities in the care of acutely ill people
- carry out and assess assessments and priorities of acutely ill people/patients
- apply acute care
- problematize and analyse the vulnerability of patients and their families as well as their participation in acute care contexts
- analyse, assess and communicate caring science research within emergency medical care

Content

- Assessments and priorities
- Caring for the acutely ill
- Participation and vulnerability
- Ethical and existential dilemmas
- Crises from patient and nurse perspectives
- Current caring science research

Type of Instruction

Varying forms of teaching may be included, such as:

Lectures

Seminars – mandatory

Application exercises – mandatory

Group activities – mandatory

Examination

The course is assessed with the grades Fail (U) or Pass (G).

Course Evaluation

A written evaluation is carried out and compiled in a report, which is archived at the institution. The results, along with possible measures taken, are reported to the students the next time the course is given.

Other

The number of examination opportunities is limited to five.

Students at Linnaeus University can, at request, receive their grades in ECTS credits, according to the ECTS-scale. This re-quest should be made at the introduction of the course.

The number of study places is limited.
