- Group work
- Seminars

## Examination

The examination of the course is divided as follows:

Code	Designation	Grade	Credits
2101	Web-based individual take-home written examination	AF	7,50

The course is assessed with the grades A, B, C, D, E, Fx or F.

The learning output is examined with a web-based individual take-home written examination (7.5 credits). In order to gain a Pass grade (AE) the expected learning outcomes must have been achieved. Grading criteria is stated for the examination and is the basis for the grading.

If the university has decided that a student is entitled to special pedagogical support due to a disability, the examiner has the right to give a customised exam or to have the student conduct the exam in an alternative way.

Repeated examination is offered in accordance with Local regulations for courses and examination at the first and second cycle level at Linnaeus University.

## Objectives achievement

The examination elements are linked to the course objectives in the following ways:

Goal	2101
A.1	<input checked="" type="checkbox"/>
A.2	<input checked="" type="checkbox"/>
A.3	<input checked="" type="checkbox"/>
A.4	<input checked="" type="checkbox"/>

---

## Course Evaluation

A course evaluation will be carried out during the course or soon after. The result and the analysis of the course evaluation will be communicated to the students who have completed the course and presented to those who take the course the next time it is given. The course evaluation is anonymous.
