

## Course syllabus

Faculty of Health and Life Sciences

Department of Health and Caring Sciences

4HÄ039 Individuellt projekt i hälsovetenskap, 7,5 högskolepoäng  
4HÄ039 Individual Project in Health Science, 7.5 credits

### **Main field of study**

Health Science

### **Subject Group**

Other Interdisciplinary Studies

### **Level of classification**

Second Level

### **Progression**

A1N

### **Date of Ratification**

Approved by Faculty of Health and Life Sciences 2020-01-13  
The course syllabus is valid from autumn semester 2020

### **Prerequisites**

General entry requirements for second cycle studies and English 6 or equivalent.

## Objectives

After completing the course the student will be able to:

- individually plan, conduct and present a self-chosen project on a current health matter
- justify the project's relevance based on current research in Health Science
- evaluate the project on the basis of its relevance for humans and non-humans in the context of climate change related health consequences

## Content

- Individual self-chosen project
- Human and non-human health
- Health and climate changes
- Project design

## Type of Instruction

Individual studies

Seminars  
Student-led seminars  
Supervision (individual and in group)

## Examination

The course is assessed with the grades Fail (U), Pass (G) or Pass with Distinction (VG).

The course is examined individually through an oral presentation (5.5 credits) and a written report (2 credits). The written report is assessed with the grades Fail or Pass. The oral presentation is assessed with the grade Fail, Pass or Pass with Distinction. For the grade Pass on the course, this grade is required on all the examination assignments. For the grade Pass with Distinction, the grade Pass is required on the written report and the grade Pass with Distinction on the oral presentation.

Repeated examination is offered in accordance with Local regulations for courses and examination at the first and second-cycle level at Linnaeus University.

If the university has decided that a student is entitled to special pedagogical support due to a disability, the examiner has the right to give a customised exam or to have the student conduct the exam in an alternative way.

## Course Evaluation

During the implementation of the course or in close conjunction with the course, a course evaluation is to be carried out. Results and analysis of the course evaluation are to be promptly presented as feedback to the students who have completed the course. Students who participate during the next course instance receive feedback at the start of the course. The course evaluation is to be carried out anonymously.

## Required Reading and Additional Study Material

Literature, approximately 1 000 pages, will be decided upon agreement with supervisor and examiner.
