Faculty Board of Science and Engineering
School of Engineering

4TE100 Projektarbete, 15 högskolepoäng
Project Work, 15 credits

Main field of study

Technology

Subject Group

Other Subjects within Technology

Level of classification

Second Level

Progression

A1F

Date of Ratification

Approved by the Board of the School of Engineering 2012-11-28

The course syllabus is valid from spring semester 2014

Prerequisites

General entry requirements and English B (Field-specific entry requirements 2/A2).
Courses on advanced level necessary for the specific project work.

Objectives

After completing the course the students are expected to be able to

- apply and intensify the knowledge acquired during studies on advanced level
- define problems, plan and carry through a major project
- write a scientific report according to the

academic/technical report-writing model

- present their projects orally
- opposing on other degree projects

Content

The course comprises the following elements:

- problem formulation, analysis, methods, results
- presentation, report-writing
- oral presentation
- opposing at the presentation of another project work
- presentation of the project in print to the fakulty as well as in digital form on the

university library website.

Type of Instruction

The teaching comprises

- teacher-led supervision
- literature studies

Examination

The course is assessed with the grades Fail (U) or Pass (G).

The examination is based on

- the presentation of the student's own project work
- the performance as opponent of another project work
- submission of reports to the department as well as in digital form to the university library website.

Course Evaluation

When the course has finished, an evaluation is compiled. The results are reported to the students and then archived according to the rules of the school.

Other

Certain elements of the course may entail costs which will have to be defrayed by the course participant.

Required Reading and Additional Study Material

Required reading

Literature is selected after discussion with supervisor.
