

Course syllabus

Faculty of Technology

Department of Forestry and Wood Technology

4TS405 Skogsindustriell logistik, 15 högskolepoäng

Forest and Wood Industry Logistics, 15 credits

Main field of study

Forest and Wood Engineering

Subject Group

Forest Science

Level of classification

Second Level

Progression

A1N

Date of Ratification

Approved by Faculty of Technology 2014-10-03

The course syllabus is valid from autumn semester 2015

Prerequisites

Knowledge equivalent to 90 credits within the subject Forest and wood engineering of which at least 7,5 credits in logistics or equivalent.

Objectives

After completing the course the student is expected to have:

- Knowledge regarding the distribution channel for instance actors, roles and power distribution
- Good knowledge of the flow of goods, services, and information in the supply chain
- Ability to carry out and present an advanced project

Content

The content is decided in consultation between students and teachers according to preconditions and sphere of interest. The projects can focus on economical as well as technical subjects and deal with the supply chain from raw timber to the market for finished products as a whole or as parts of.

Type of Instruction

The course consists of lecturers, workshops, an individual paper as well as a project work (in which the students work in small groups in contact with tutors).

Examination

The course is assessed with the grades A, B, C, D, E, Fx or F.

The grade A constitutes the highest grade on the scale and the remaining grades follow in descending order where the grade E is the lowest grade on the scale that will result in

a pass. The grade F means that the student's performance is assessed as fail (i.e. received the grade F).

Workshops, individual papers and project work

Course Evaluation

A course evaluation will be carried out and compiled after the course is completed. The compilation will be presented to the current board as well as to the students and filed.

Credit Overlap

This course cannot be part of a degree in combination with another course in which the content fully or partly correspond to the content of this course: Overlaps entirely with TSD940. 4TS404 Forest and Wood Industry Logistics, 15 hec

Other

Grade criteria for the A–F scale are communicated to the student through a special document. The student is to be informed about the grade criteria for the course by the start of the course at the latest.

Required Reading and Additional Study Material

Required reading

Litterature and other documents should be in alignment with the projects and will be decided in the beginning of the course.
